Click the image below to view the CalEnviroScreen 1.0 Statewide ZIP Code Results.

Click on a map to be taken to the map viewer, shown below:

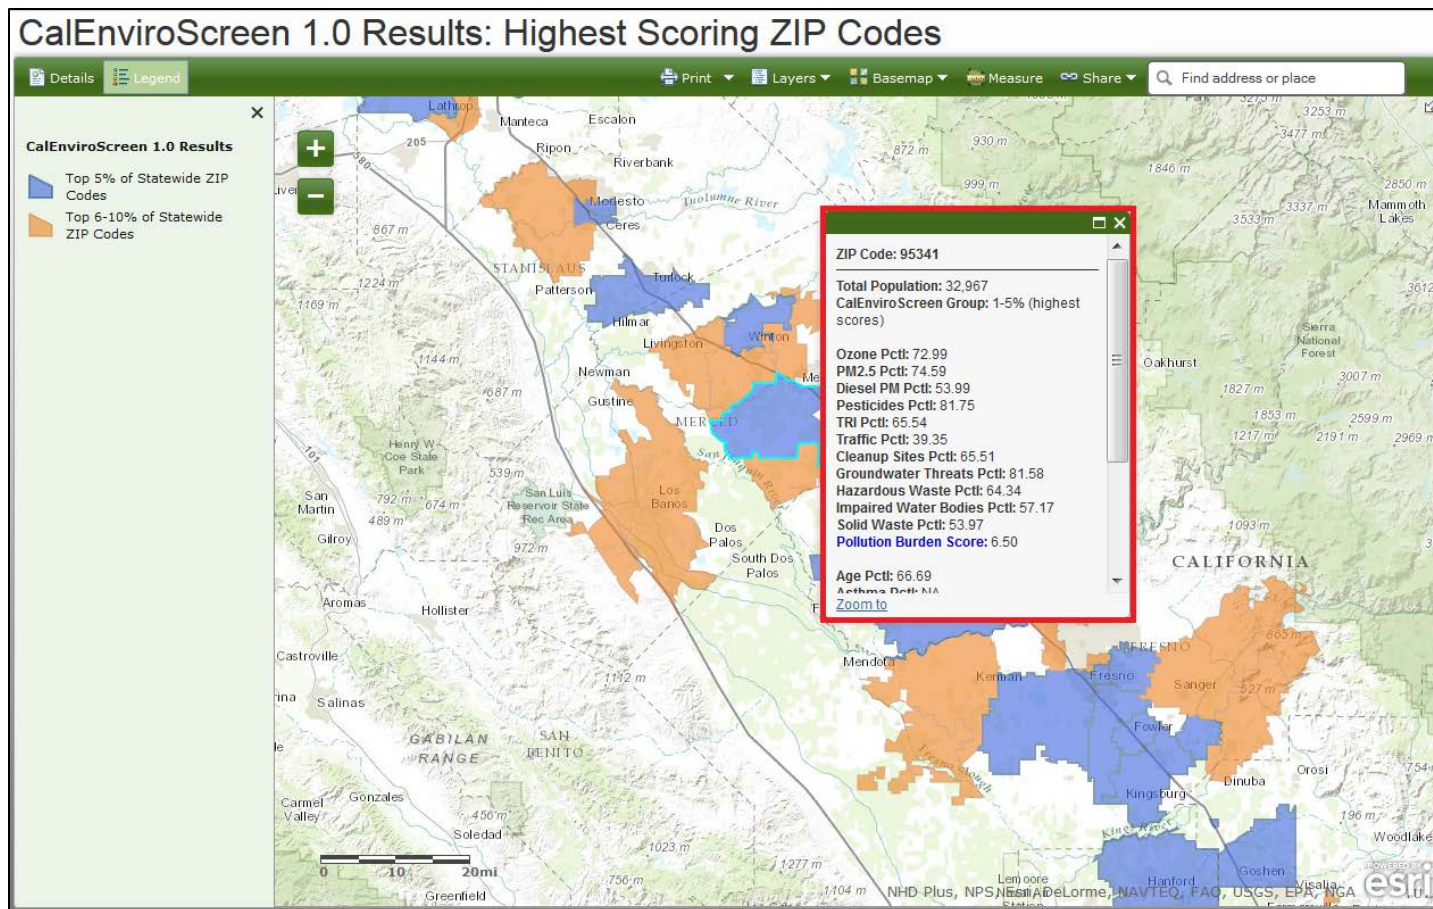

The Map Viewer

Click on the **Legend** and **Details** buttons in the upper left to get information about what's being shown.

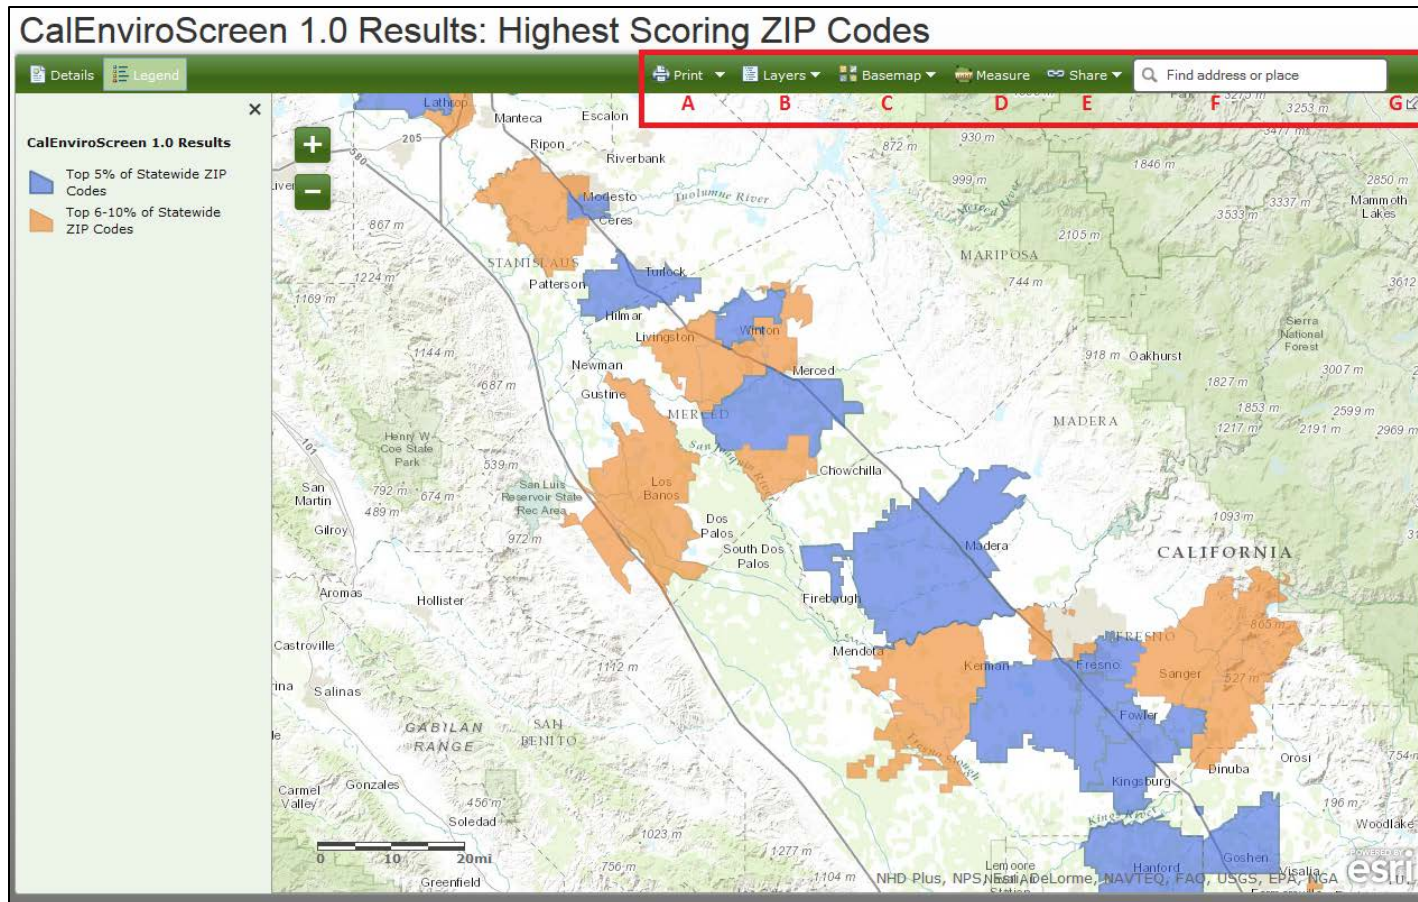

1. Use + and – to zoom in and out.

- Once you've zoomed in, click on a ZIP code to get its CalEnviroScreen score and the percentiles for each indicator. Clicking on a ZIP code also reveals the total population and CalEnviroScreen grouping.

Percentiles are an easy way to rank information. An indicator's percentile reflects the ranking for that ZIP code compared to other ZIP codes in the state. A higher percentile means the indicator contributes more to the final score.

3. The tool bar: There are several buttons across the top of the map viewer that allow the user to perform certain tasks with the map.

- A. Print:** Use this button to print an image or PDF of your current map view.
- B. Layers:** The CalEnviroScreen colors can be turned on or off by checking/unchecking the box.
- C. Basemap:** To change the look of the basemap, you can click on one of the available options from the drop down menu.
- D. Measure:** The measure tool bar lets you measure area, distances or your latitude/longitude.
- E. Share:** Use this button to share your screenshot with friends by e-mail, Facebook or Twitter.
- F. Search:** Type in an address or place here and hit 'Enter'.
- G. Overview map:** Click the arrow in the corner to see a larger map of the area you're viewing.
